

Sea Bay Game Company introduces the

Keeping Seniors in the Know!

Low Cost!!!

Large Screen Digital Display System

Calendar/Date and Weather Board/Message Board

***Bring your facility into the 21st Century with the
TelAgenda Digital Calendar/Message Display System.***

-No more paper calendars and posters on the walls. Residents, families and friends will be impressed by the beauty of the digital calendar and attention getting messages as they scroll on your large flat screen TV in common areas of your facility (use an existing TV or purchase one the appropriate size for your needs) or connect to your in-house TV channel.

-Spend less time preparing your monthly calendar and more time with your residents. The TelAgenda calendar program is fast and easy. You can enter or edit information at work or at home from any computer. The information displays on the appropriate day. Your calendar will display as a clean, neat, crisp digital screen. You can print the calendar from your computer for a paper copy.

-Easily add any message screen you need such as Welcome, Birthdays, Daily Announcements, Menu etc. then schedule it for the appropriate date to display.

-Families can have to access the monthly calendar by simply adding a link to the facility web site.

-No more changing cards on date or reality orientation boards every day. A weather and date screen automatically downloads each day for your city and updates every 1/2 hour.

-The dietary and nursing staff can also access the TelAgenda web site if a menu or health screen is desired.

-Residents will love seeing the photos from their parties and events. Just download and add text.

For more information call 1800 568-0188

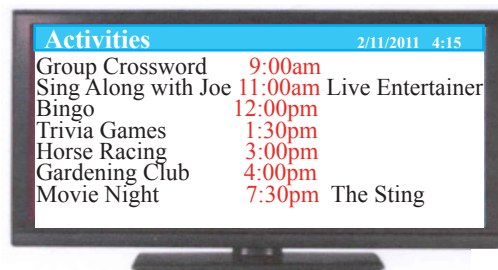

Sample basic screen designs which scroll throughout the day on a flat screen TV in common areas of your facility.

A date and weather screen automatically downloads for your city. The weather updates throughout the day.

An activity screen for the day automatically displays with the activities scheduled from your monthly calendar.

Then add any number of additional screens, just choose background and add text and photos, then schedule a display date.

Download your photos and easily add text to have personalized screens scroll. You can also add video clips.

Dietary staff can access the web site to post daily menus. Menus can be prepared ahead of time and scheduled for the appropriate day to appear.

Print a 30 day calendar to hand out to residents. No need to use another program to produce colorful monthly calendars. You can easily add additional information and clip art.

Custom Screen CD

Create your own customs screens!

Also available is our Custom Screen CD which provides you with over 50 background images to use. With the Telagenda link to a photo editing program you can add text to these images. You can easily create any custom screen. The Custom Screen CD contains various landscapes, seasonal, holiday and color images. Your custom screens are then easily downloaded to the Telagenda and will scroll on the date you schedule.

P900C- Custom Screen CD \$19.99 1 custom screen CD can be used on multiple units.

WiFi Installation

You provide:

1. TV- any size with HDMI input (see below).
2. In-house WIFI .
3. HDMI Cable

Purchased from Sea Bay Game Co.:

1. TelAgenda Player with subscription

Hard Wire Installation

You provide:

1. TV- any size with HDMI input.
2. HDMI cable and network cable.

Purchased from Sea Bay Game Co.:

1. TelAgenda Player with subscription

TelAgenda Pro Pricing

Connectivity- Ethernet Wire or WiFi
Video Display: Yes

Pricing

P900- TelAgenda Pro Player & Initial Basic Screen Designs, 1 year warranty, **\$499.00** plus shipping (TV and HDMI cable not included).

P900M- Three or more units-Multiple pricing available call for information.

P900S- **\$399.00** Annual Subscription.

P900 WM- Extended 1 year warranty **\$50.00/ player/yr.**

Testimonials

We LOVE our TelAgenda here at Heritage Manor. Our residents like seeing the monthly calendar, menu and daily activities all in one location. I'm also having a lot of fun designing displays for birthdays, football games and special events. The weather display is wonderful. Now when I get asked what the temperature is outside I can direct them to the board to see for themselves.

Kathy Garner
Activity Director
Heritage Manor
Elroy, WI

A few comments on TelAgenda.....

Luther Towers and Luther Village are two complexes in Dover, DE . Three years ago we decided that there was a need to have some way to communicate with our residents in a regular and timely manner as to what was happening on our campus relative to activities and points of interest and special concerns related to our residents. The first thought that came to mind was some type of message board and our research let us to TelAgenda.

It was decided to install a TelAgenda unit in the building from which our primary operation takes place. It wasn't long before it became almost imperative that there be a unit in each building on the Luther Towers campus, so three more units were installed. We then discovered that since the Luther Village campus was at a separate location and different information applied. The answer to that was, of course, to install units in each of the buildings on that campus.

Having this method to communicate with our residents has been well accepted by everyone. The information being displayed is basically handled by our Director of Social Services. Although the information is different on the two campuses, it is easily handled by one person from one location. However, with me being the director of all facilities, it is very easy for me to post information on a moment's notice from my computer in my office.

Just a little side note... In one of our facilities which has in-house cable service, one of the channels carries the TelAgenda message service.

We love our TelAgenda service and find that it has provided a much needed service for us from a an operational position as well as giving the residents a feeling of being informed as to "what is going on" where they live.

Generally speaking, we couldn't get along without it.

Ken Richter
Director of Facilities
Luther Towers, Dover DE
